| Metal type: | Ferrous or non-ferrous metals |
| Buff type: | Can be used on harder buffs Sisal and treated sisals Hard mill treated cottons |
| Performance: | Cut : 9 Colour : 3 |

Comment:

- Hard calcined alumina cutting compound. Particularly good on steel and stainless steel, but useful on a wide variety of metals
- To produce a good final finish use with **Sunblue or M8503.**
- For a 3 stage super fine finish use **Spraybrite M7814.**
