Performance:	Cut : <b>7</b> Colour : <b>7</b>

Comment:

- This product does not contain any constituents of animal origin
- Top of the range cut and colour compound capable of a single operation finish
- Buff selection is important to maximise product performance
- Provides a fine lined finish on stainless steel
- No animal derived products are used in the ingredients

**Note:** Second operation: **Britelea 309** (see Product Information Sheet) to produce a final colour/finish on all metal types.
