

XF885

TOP SIZE

VSM CERAMICS Plus

Grain type	Ceramic
Bonding	Full-resin bonded
Colour	Red-brown
Backing	Vulcanised fibre
Production width	1,470 mm

Materials

Features

Microcrystalline ceramic grain abrasive with a medium-closed coat and improved self-sharpening effect for medium to high contact pressures. Optimised for working on superalloys, stainless steels or aluminium. Offers impressively aggressive yet cool grinding over very long lifetimes. The additional TOP SIZE layer improves stock removal while reducing the temperature in the grinding zone.

Grit sizes¹⁾:

Benefits

- > Very high stock removal
- > Optimised self-sharpening effect
- > The additional grinding active layer VSM TOP SIZE ensures a cool cut and an extended service life
- > High wear resistance
- > Special coat for hand-held machines
- > Form-resistant vulcanised fibre backing

Wear pattern of the grain

Due to their optimised microcrystalline structure, **VSM CERAMICS Plus** series feature an improved self-sharpening effect, which produces much more sharper edges.
