VSM CERAMICS

| | |
|-------------------------|-------------------|
| Grain type | Ceramic |
| Bonding | Full-resin bonded |
| Colour | Red |
| Backing | X-Polyester |
| Flexibility | Sturdy |
| Production width | 1,480 mm |

Materials

Features

Ceramic grain abrasive with a self-sharpening effect: offers impressive results when working on stainless steels or aluminium with aggressive cut and a very long life-time – all this despite an optimised price/performance ratio. The additional TOP SIZE layer improves stock removal while reducing the temperature in the grinding zone.

Grit sizes¹⁾:

Benefits

- > Self-sharpening effect constantly produces new sharp edges and thus enables much higher stock removal rates
- > The additional grinding active layer VSM TOP SIZE ensures a cool cut and an extended service life
- > High wear resistance
- > Optimised price-performance ratio

Wear pattern of the grain

The microcrystalline structure of the **VSM CERAMICS** series enables a much more subtle breaking down of the grain and constantly produces new sharp edges.
