Materials

Features

Universal ceramic grain abrasive with a self-sharpening effect: offers impressive results on stainless steels, superalloys or non-ferrous metals with aggressive cut and a very long service life across a wide range of applications. The additional TOP SIZE layer improves stock removal while reducing the temperature in the grinding zone.

Full-resin bonded

Benefits

- > Self-sharpening effect constantly produces new sharp edges and thus enables much higher stock removal rates
- > The additional grinding active layer VSM TOP SIZE ensures a cool cut and an extended service life
- > High wear resistance
- > Highly resilient

Wear pattern of the grain

The microcrystalline structure of the **VSM CERAMICS** series enables a much more subtle breaking down of the grain and constantly produces new sharp edges.
